A Report for the Year 1996
For the second year, Woods Charitable Fund, Inc. features the work of a local artist on its cover. Believing there are many ways to support the arts, we hope that using this annual report cover to draw attention to visual arts and highlight the work of a community artist is an effective way.

Anne Burkholder could be called a quintessential Nebraska artist. Best known for painting Nebraska landscapes, she was born in the state’s Sandhills, attended the University of Nebraska and now lives and works in Lincoln. Anne has painted professionally in both oil and watercolor since 1962, when she received her Bachelors degree in Liberal Arts from the University of Nebraska, where she would later complete a BFA in art with distinction.

Anne’s work has been exhibited and appears in many private, public and corporate collections in the United States, England, Switzerland, Germany, France, Austria, Japan, Australia and Morocco. Major collections holding Burkholder works include: IBM, St. Louis; Hallmark Cards, Kansas City; McDonald’s Corporation, Chicago; First Bank System of Minneapolis; Pillsbury Company, Minneapolis; Santa Fe Railroad, Kansas City; Cliff’s Notes, Lincoln; Federal Reserve Bank, Omaha; and AT&T, Oklahoma City among others.

An experienced sailor and world traveller, Anne takes risks and lives life fully. Through the years she has broken new ground as an artist and, more recently, as a business developer. In the late 1980’s Anne designed, developed and became general contractor for the Burkholder Project. The Project, conceived by Anne, is a complex of twenty-six art studios and four gallery spaces located in Lincoln’s Historic Haymarket District. It was the first of its kind in Lincoln.

Anne’s collage, *Lincoln Skyline, Starry Night*, featured on the cover of the Woods Charitable Fund’s 1996 annual report, demonstrates one of the new directions her work is taking and inspires us to share her optimism and spirit of adventure.
Woods Charitable Fund is a private philanthropic foundation created by Frank H. Woods, his wife Nelle Cochrane Woods and their three sons. It was incorporated in Nebraska in 1941 and Frank Woods provided major endowment in 1952 before his death that year. In 1955 the Fund received one-third of the net residuary estate of Nelle C. Woods. Over the years the family-owned Sahara Enterprises has contributed to foundation assets.

For over fifty years the Fund made grants in Lincoln, Nebraska and Chicago, Illinois. Until the early 1980’s, it operated as a family foundation under the leadership of trustees Frank H. Woods, Jr. and Thomas C. Woods, Jr. Frank Woods from Chicago and Tom Woods from Lincoln had many business and personal ties in both cities. Their deaths in 1980 and 1989 respectively, brought changes which included expanding the board beyond family members to acknowledge both the benefits of new viewpoints and fewer family members in the two cities available for board membership; bringing on staff; and introducing more targeted grant programs.

At the end of 1993, Woods Charitable Fund underwent a major restructuring that institutionalized in two separate foundations the different grant programs of the Fund in Chicago and Lincoln. Woods Charitable Fund now operates in Lincoln only and a second foundation, Woods Fund of Chicago, was created by transferring some of the original foundation’s assets to the new foundation. Both foundations currently operate with locally representative boards and are able to respond to the issues, opportunities and creative leadership in their respective communities.

The Fund’s reports and Treasury Form 990-PF are on file at the Foundation Center in New York City and Washington, D.C. as well as in the office of the Secretary of State in Lincoln, Nebraska.

On this annual report cover a comet crosses starry skies over Lincoln and in the Woods Charitable Fund office, electrical impulses and beams of light brought voices and images into our telephones and computers to share ideas, plans and requests. The Information Age came to visit the Fund in 1996 and then settled in. This year:

- We received our first grantee report placed on the Internet.
- E-mail requests for information began to fill our mailbox.

Foundations choose various ways to communicate with communities, peers and grant seekers. Today, with many communication options to select, the choices are more complex and deciding which to use can be complicated. Web page, e-mail, fax, annual report, newsletter, direct mail, voice mail, internet access, face to face conversations...the right combinations allow us to interact with more people in increasingly fast and effective ways.

Together with other foundations across the city, Woods began using the Lincoln/Lancaster County Grantmakers’ Association common grant application form this year. The new form, now used by six local grantmakers including Woods, simplifies the grant seeking process for many tax-exempt organizations and requires the on-going communication of the grantmakers using it. More connections in faster, more effective ways...

The Fund is offering several new communication choices and possibilities this year. We hope they will make it easier to exchange ideas and news with you. Please be in touch.

1996 Planning Directs Grantmaking

*Nebraska Partnership, Welfare Reform, Block Granting.*

Government plans and efforts to redesign health and human services coupled with the real possibility that changes may come with fewer federal dollars to pay for them, resulted in a board commitment to target grants in 1996 to sustain and strengthen community tax-exempt organizations while the nonprofits reassessed their directions, formed new partnerships and explored innovative ways to support important work. Directors also dedicated Fund encouragement and funding to greater nonprofit involvement in community and statewide policy development. They determined that Woods should award more general operating grants and grants supporting advocacy, technical assistance and planning in 1996.

Grants approved and paid in 1996 reflect their approach—13% of all grants paid funded advocacy/education efforts and 36% of grants supported general operating expenses of funded agencies. Several smaller grants underwrote technical assistance and planning processes in small to medium-sized not-for-profit organizations. Please review the Woods Charitable Fund Grant Program section of this report for more information about those grants and contact our office if we could provide more information.

**Marie Fischer Completes Term of Office**

Marie Fischer’s service on the Woods Charitable Fund board of directors began in 1992 when she was recently retired from the University of Nebraska and working as a trainer for the Grantsmanship Center. Marie brought extensive experience in planning, fund development, social welfare and education to this board. She faithfully reminded us that careful planning and well executed evaluation are critical to project and organizational success. She kept us from overlooking important details that had impact on the grants we made and she pointed out the strengths and
successes of those whose work the Fund supported. Her warmth and genuine interest in each of us brought out our best. We appreciate Marie’s outstanding ability and achievements, and we gratefully acknowledge her generous contribution of time and expertise to Woods. The foundation has been enriched by it.

In conclusion, please note that Woods supported ten new grantee organizations in 1996 - groups that had never before received a Woods Charitable Fund grant. We encourage you to read and learn about those and the variety of innovative programs the foundation was privileged to fund in 1996. And please get in touch if you’d like to share your ideas and suggestions. There are new ways to reach us now!

PURPOSE

Through grants made to eligible organizations, Woods Charitable Fund seeks to strengthen the community by improving opportunities and life outcomes for all people in Lincoln, Nebraska. Woods supports members of the nonprofit sector who are exploring creative alternatives and promoting more just, effective approaches to meet community needs.

The Fund supports a broad range of activities which include but are not limited to the Special Interests described below. We are interested in reviewing plans for pilot projects and innovative programs as well as sustained growth for organizations whose work coincides with the purposes of the foundation. The foundation funds both direct services and policy programs.

The Fund looks forward to opportunities to review proposals joining partners (academic, community, government, business, public service, religious) to explore ways to integrate perspectives and talents toward common goals. We support projects that involve coalition building, public education and advocacy to effect positive social change and improve opportunities for all citizens.

SPECIAL INTERESTS

Children, Youth and Families

A significant cornerstone in community life is the family. Its power to mold and develop mentally healthy, secure, loving members determines Woods’ interest in supporting projects to strengthen families and provide opportunities for youth to achieve their full potential. This is a broad category and may include either direct service or policy programs focused on child care, single parenthood, the elderly, family planning, shelter, troubled families as well as others. The areas of youth and family violence have been identified as primary community concerns and the Fund will give special consideration to programs that address those issues.
Education

Our educational systems face the challenge of preparing individuals for a rapidly changing society. Today, more than ever before, education touches the lives of people of all ages—students at all levels, newcomers learning a second language and culture, adults retraining to handle new job responsibilities. The Fund looks forward to opportunities to review proposals from existing educational institutions and from creative new programs to meet the challenge.

Community Development and Housing

To sustain or increase its vitality, a community must consistently nurture its development, particularly as that development impacts lower income citizens. The Fund supports projects that empower less advantaged Lincoln residents to participate in the economic system and that foster community participation and responsibility thus joining people to solve problems and improve opportunities for all. Woods recognizes the growing need in Lincoln for affordable housing and supports programs that expand its availability. Advocacy groups, neighborhood, citizen and community organizations are avenues to promote citizen involvement and strengthen neighborhoods. The need for individuals to achieve self-sufficiency, including assistance to enable people to earn an adequate income, has also been identified as a primary community concern. The Fund encourages submission of proposals that suggest creative approaches to address this concern.

Arts and Humanities

Visual art, literature, dance, theater and music are cornerstones of a community’s aesthetic and ethical being. They can bind people through shared experience and understanding. They stimulate thought, communication and creativity. Woods supports programs in the arts and humanities that will enhance or develop the common aesthetic spirit through education, creation or performance. Programs that connect the arts and humanities with nontraditional participants are of special interest to the Fund.

To Apply for a Grant

You should know before applying

- Contact the Fund in writing or by telephone with a summary request and budget information and staff can help you decide whether it is worth your time and expense to proceed with a full proposal.
- Many excellent proposals cannot be funded because there are absolute limits to the number of proposals the Fund can study thoroughly and support.
- The Fund requests a statement describing the multicultural impact that your project or organization may have.

- If your organization receives a grant, you will be asked to sign a grant agreement form requiring written reports (usually at six-month intervals) on use of the grant in relation to the original proposal objectives and program results. A selected number of grantees may be asked to participate in a post-grant evaluation to study program accomplishments in more depth.

Funding Limitations & Restrictions
